

**Mathieu Munsch** is the Co-founder and CEO of Qnami. He holds an engineering degree from the ENS Grenoble INP and a Ph.D. in Quantum Mechanics from the University Grenoble Alpes. He worked 10 years as a Researcher developing new sources of quantum light and lasers. He is the author of > 15 publications in high profile papers such as Nature and the Physical Review. In 2017, Mathieu founded Qnami AG, a pioneer company in the quantum technology industry. Today Qnami is a leader in the emerging market of quantum sensing and metrology. Mathieu is actively in the creation of a European quantum ecosystem and training of a new European workforce for quantum applications.
